

Civil Society Public Communique

We call for action and commit to:

- Walk together as a Coalition of Allies in solidarity with First Nations Peoples, communities and organisations.
- Walk together as a coalition to advocate for the Australian Parliament to implement the Uluru Statement from the Heart.
- Influence key decision makers to commit to a referendum on a constitutionally enshrined First Nations Voice in the next term of Parliament.
- Educate and mobilise our supporters and partners on the Uluru Statement from the Heart.
- Use our collective voice to speak out in support of First Nations Peoples and their priorities, like the Uluru Statement from the Heart.
- Encourage other organisations to join our coalition to grow our influence and reach.
- Work internally to elevate and amplify First Nations leadership and voices within our own organisations, looking critically to identify and challenge systems, processes and decision-making structures that do not support First Nations leadership or silence/marginalise First Nations voices.
